It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose.

## Visa Types

### Tourist Visa

Tourist visas normally permit the holder to remain in the destination nation for a certain length of time. This can last anywhere from a few days to a few months. Tourist visa holders have no right to work or participate in non-tourist activities during their visit. In rare situations, a short-stay visa for a specific nation may allow for objectives other than tourism, such as business. These are the most popular types of visas in most countries. Therefore, it is usually the easiest one to request.
